### 3 Year Parts/Labor Warranty Additional 2 Year Compressor Warranty

#### MARKETMAX™ MERCHANDISER SERIES—GLASS DOOR MERCHANDISER

Triple section glass door merchandiser with lighted sign panel used for merchandising and storage of frozen food, frozen novelty items and cold product.

#### CABINET CONSTRUCTION

Heavy duty construction includes white coated steel interior walls. Exterior finish is heavy-duty steel with a baked on durable coating. Choose from black or white finish. S/S exterior and black interior options are available.

Foamed-in-place CFC and HCFC-free polyurethane insulation.  
Modern, one-piece grille is easily removed for cleaning and servicing.

Refrigerators have double pane, lowE argon filled glass doors. Freezer models have heated triple pane glass. Inside and outside panes are tempered for added safety. Anti-microbial door handles are standard. Doors provide automatic hold-open feature.

Brightly lighted sign panel.

#### SHELVING

Five (5) heavy duty epoxy coated wire shelves per section standard.  
Four (4) shelf clips included per shelf (field installed).  
Shelves are adjustable in 1/2" increments.

#### ELECTRONIC CONTROL

Electronic thermostat with manual defrost button provides a digital display of cabinet temperatures, which includes status indicators and key pad for any necessary temperature adjustments.

#### ELECTRONIC LOCK

If the cabinet temperature exceeds the food safety temperature, the door will automatically lock until the cabinet temperature can be restored. The door will lock if there is a loss of power. Upon power up, the door will unlock if the power loss did not exceed 15 minutes. If the power loss exceeded 15 minutes, the door will remain locked until the system is reset.

#### REFRIGERATION

Self-contained bottom mount refrigeration system. Expansion valve refrigerant control on freezer provides quick temperature pull down and reduces compressor run time—meaning reduced energy consumption. Includes automatic condensate disposal. Refrigerators utilize ozone friendly R134a refrigerant. Freezers utilize ozone friendly R404A refrigerant and its defrost system is fully automatic, time-initiated and temperature terminated operation.

Freezer product temperatures from -10°F to -15°F.  
Refrigerator product temperatures from 36°F to 38°F.

#### ELECTRICAL

Interior LED lighting enhances product illumination. Standard LED lighting provides hidden light source for increased product visibility. LED bulbs last up to 10 times longer compared to fluorescent bulbs and renders additional energy savings due to reduced wattage load on compressor.

Refrigerator units wired at factory and ready for connection to a 115/60/1 phase, 15 amp dedicated outlet. **MMF72 freezers powered by 115/208-230 volts are designed for field wiring (requires 4-wire electrical circuit, hard-wired).**

Freezer units wired at factory and ready for connection to a 115/60/1 phase, 20 amp dedicated outlet. 8' long cord and plug set included.
